

### **CORIAN DISCLAIMER**

If you wish to purchase a DuPont Corian worksurface in any of the disclaimer colours.

These colours are heavily pigmented surface finish which will show marks, scratches and ordinary wear and tear far more readily than lighter textured colours; joints may also prove less inconspicuous.

Though, over time, the product will gain its own patina, through regular cleaning and use, and become more durable we recommend that this colour is not used in areas exposed to heavy use and contact.

It is not our intention to turn away business but, under our duty of care, to inform and advise on the characteristics and qualities of the product as detailed by DuPont. Following installation DISCOUNT WORKTOP STORE LTD will not be held responsible for aspects of product performance relating to the quality of surface finish.

Therefore, prior acceptance an order for a Corian disclaimer colour, we wish to make you fully aware of DISCOUNT WORKTOP STORE LTD's Disclaimer regarding this product.
